

Turkey Out of Rojava

Send the Turkish Regime Out of all of our countries and territories!

Recep Tayyip Erdoğan, Turkey's strongman, has ordered the invasion of Rojava in northern Syria. The Turkish is NATO's second most powerful army. Right now, the genocide, dispossession and massacre caused by the Turkish armed forces is advancing. Turkey has unleashed its death machine. Rojava, liberated by the Kurdish peoples, by the YPG, the YPJ and the PKK, has proven in practice that the liberation of women, Democratic Confederalism, and an ecological society can overcome the millennia of patriarchy, racism, capitalism and planetary destruction. Rojava shows a concrete path for humanity to leave behind the Nation-State and all the destructive institutionality that exploits communities to serve the insatiable accumulation of profit and power. The Turkish dictator and his accomplices need to crush Rojava and the many peoples who live there to maintain their wretched and bloody regime. Here it is impossible to name with words what can only be understood under the impact of bombs, blood, death, death and plunder.

In the face of this massacre and of the destruction of a concrete and noble path towards our own liberation, once again our impotence, disorganization and limitations are being exposed. In the midst of their hideous acts of death and destruction disguised via rhetoric, declarations, meetings, refusals, guarantees, promises, and statements, stand our letters, declarations, reports, messages and images of horror. As this recurrent performance ensues, those who survive the bombings, bullets and horror, are being forced to flee and again abandon both the cities and communities of Rojava, and an exceptional path towards our own liberation, which thus faces imminent destruction.

Today Turkey is Erdoğan: a murderous, invading army. Turkey is an enemy to humanity. A repugnant apparatus of death: Turkey, this government, and this oppressive, racist regime. This tyranny led by one man and his followers. This military power tied to NATO and the most powerful countries of global capitalism, all of which support each other in this bloody and criminal invasion; this very same Turkey of death and terror, of genocide and racism, is represented in all our countries, cities and territories with the complicity and support of most of the world's governments: NOT IN OUR NAME!

We don't want any representation of the Turkish regime in our countries, cities, and territories. We want the Turkish government and its representatives and diplomats across the world to know this. We want them out. We want them to leave. They are not welcome. We need to make sure that they realize clearly in all possible and necessary ways, that we don't want them here. We don't want to have anything to do with the Turkey that invades Rojava and oppresses the many diverse peoples who live there. Attacking Rojava is an atrocious, unforgivable, cowardly and repugnant crime. It is a crime against all of humanity and against life itself. It is a crime against us all.

Thus we are committed to coordinate and carry out, from all of our rage, anguish, creativity and strength, the necessary actions to make the representatives of the Erdoğan regime know that they are not welcome among us; so that they leave. So that they know that they have no place among us as a result of their attacks against Rojava and their oppression of the Kurdish and other peoples.

Turkey out of Rojava! Turkey out of Kurdistan! Down with the Turkey of death, hatred, patriarchy, and world tyranny. Out! Get out of our countries. We don't want to have anything to do with such death and tyranny! Nothing! No embassies, no consulates, no relationships of any kind with a genocidal regime! Not in our name!

Turkey out of Rojava! Let us send Turkey out of our territories!

Committed to act accordingly:
